| <p><b>Lisa DeJean</b><br/>President<br/>Association for Gifted and Talented Students in Louisiana (AGTSLA)</p> | <p><b>Association for Gifted and Talented Students in Louisiana (AGTSLA)</b></p> <p>Join Lisa DeJean the President to learn more about the newly revitalized Association for Gifted and Talented Students in Louisiana (AGTSLA). This has been an exciting year for AGTSLA as they begin to form regional chapters. Learn more about how being a part of a Parent Organization can help students, parents, and teachers.</p>  |
| <p><b>Beth Moore</b><br/>Moore Wellness</p>  | <p><b>Co-Regulation</b></p> <p>Join Beth at the Moore Wellness table for "How do you regulate intense feelings and behavior?"</p> <p>You will learn fun ways to help your child co-regulate.</p> <p>Co-Regulation helps with Anxiety, Trauma, ADHD, Autism, Overstimulation, Big Emotions, Fear, and Life Transitions.</p>  |
| <p><b>Dr. Samantha Webre</b><br/>Lafayette Parish School Board Gifted &amp; Talented Program Supervisor</p>    | <p><b>Is My Child Gifted?</b></p> <p>Identifying students in Louisiana is a lengthy and complex process. The state has procedures in place for both the gifted screening and the gifted evaluation. I will review the processes for screening and evaluation, as well as discussing ways that parents can help their children prepare for the testing process. Many parents have mixed feelings about their gifted children. I will discuss enrichment and academic opportunities and a few parenting strategies for dealing with gifted children. Understanding that giftedness is a process, and that we need to nurture not just the academics, but also the social and emotional needs of their newly identified children, is our job as parents and educators.</p> |
| <p><b>Johnny Wells</b></p>   | <p><b>Destination Imagination®</b></p> <p>Through Destination Imagination (DI), there is no limit to the possibilities! Students learn creative thinking and problem-solving skills as well as teamwork and perseverance. They must think on their feet and apply their knowledge to create solutions to the presented challenges. DI combines science, technology, engineering, art, and math, and all things creative to provide an experience unlike any other for kids looking to think outside the box."</p>   |
